Episode 46

CORRUPTION TO THE CORE
JUSTICE LOST

COVID, COUTTS, CARE HOMES,
CONTRACTS & CHARITIES.

- *Millions of lives.*
- *Billions of dollars.*
- **ZERO JUSTICE.**

Happy Lockdown UK Day – March 23, 2020
5 years on.

The Best Laid Plans. COVID-19

A SARS-COV-2 Story.

First published on March 28, 2020

Four days **BEFORE** the UK locked down it declassified COVID 19 as a HCID because²¹; (UK Government, 2020)

"...more information is available about mortality rates (low overall)..."
(UK Government, 2020)

Since the lockdown in the UK, COVID 19 has been found to be orders of magnitude less deadly than it was thought even then. **Yet the lockdown continues worldwide.**

Why is that?

What is on this list?

- *Avian influenza A H7N9 and H5N1*
- *Avian influenza A H5N6 and H7N7*
- *Middle East respiratory syndrome (MERS)*
- *Severe acute respiratory syndrome (SARS)**

Episode 46

CORRUPTION TO THE CORE
JUSTICE LOST

COVID, COUTTS, CARE HOMES,
CONTRACTS & CHARITIES.

- *Millions of lives.*
- *Billions of dollars.*
- *ZERO JUSTICE.*

So, how did we get here?

Both Canada and the UK reported their first 'CASE' in January 2020.

Alberta reported their first 'case' from mid February.

In the last 5 years we have been told 'COVID' was circulating in many places worldwide as early as late 2019

**IF COVID WAS SO DEADLY, WHERE ARE ALL THE BODIES FROM
BEFORE LOCKDOWN?**

No country then (or now) shows Excess Deaths BEFORE lockdowns.
Most show a drop in expected deaths BEFORE lockdowns.

January 25th, 2021 - the Data vs. the Propaganda - How the fear was spread
to ensure vaccine and enforcement uptake.

On January 25th, 2021 the Alberta CMOH stated;
"25 new deaths were reported to us in the past 24 hours"

EPS reported to its staff;
"25 deaths in last 24 hours, aged 41-100 years old"
suggesting 25 people died in the previous day.

The reality is that the either 24 deaths were spread over a
38 day period. Or 29 deaths were spread over 56 days.

The reality would not create false fear to push the vaccine rollout.

DOES NOT
MATCH THE
DATA

➔

In the last 24 hours, there were 25 additional COVID-related deaths reported: one on Dec. 31, one on Jan. 11, two on Jan. 16, one on Jan. 18, one on Jan. 20, 12 on Jan. 23, and seven on Jan. 24.

Subject: CMOH Update - 25 January 2021

Hello Sir,
Here is a quick update from the CMOH update just now.

Dr. Hinshaw, CMOH

- 362 new cases, positivity rate of 5.0%
- 637 currently in hospital, out of those 113 in ICU
- 25 deaths in last 24 hours, aged 41-100 years old
- UK (B.117) variant – first case without travel connection identified – concerning development
- Some historical cases will be added to database today due to error, resulting in a total of another 400 cases over five week period
- 259 schools on active alerts and 9 with outbreaks in total 500 school related cases
- CMOH thanks all Albertans for their efforts
- Hospitalizations remain very high, plus COVID-19 hospitalizations have longer hospital stay times
- We must continue with the current measures until these hospitalization and ICU numbers come down

Actions Today

- None – current restrictions remain in place as is for the foreseeable future. Potential for update 'in the coming days'
- CMOH orders currently in place don't have expiry date, but rather state that they are in effect until rescinded.

Potential EPS Impacts

Internal:

- Recommend messaging to all employees this Friday to include information on the new variants and stressing the importance to follow current measures of masks, distancing and frequent hand washing.

What the publicly available government data showed (24th - 24 deaths).
What the publicly available government data showed (25th - 29 deaths).

What EPS Officers were told (25 deaths in 1 day).

Subject: CMOH Update - 11 January 2021

Hello Sir,

Here is a quick overview of the CMOH COVID-19 update just now.

...

IAPU 268
2023-G-0163

Dr. Hinshaw, CMOH

- 13,917 active cases in AB (YEG zone is at 5,441 active cases),
- 639 new cases, positivity rate of 6.3
- 811 in hospital, out of those 130 in ICU
- 23 deaths in last 24 hours
- Resumption reporting of school Covid-19 cases later this week
- In Alberta only seven (7) adverse health reactions were reported, only three (3) were allergic reactions, none anaphylactic. Current rate of adverse events similar to other vaccines.

*It started with a 'CASE' and the lie that hospitals were overwhelmed.
From flawed models to flawed tests... the lies stacked up.*

Those lies were needed to justify the response.

Early December 2019

"The AHS team kicked into gear long before the rest of the world knew that a frightening new infectious disease was spreading.

Jitendra "J.P." Prasad, who runs the AHS supply procurement system, is always on the lookout for terrible diseases that might impact supply and demand. He and his team heard disturbing news about a "strange flu" in Wuhan, China, in early December, Prasad said. "We have contacts from China and a lot of the conversation from them was, 'Hey, J.P., we think something is happening that may impact us.'"

BYD CARE ❤️

KN95 Respirator

Description

The KN95 Respirator is designed to help provide respiratory protection for the user. This product does have a efficiency of 95% or greater against solid and liquid aerosols free of oil. The product contains no components made from natural rubber latex.

Intended use

It is intended for respiratory protection against non-oil particles and reduce user exposure to certain airborne particles including those from dusting, sawing, grinding, sweeping, tamping or other breathing activities, such as, iron ore, flour, and construction substances.

Use Instructions

1. Before using for protecting the mouth, nose, and chin, make sure the face and head have been cleaned, hair, make-up, and accessories.
2. Do not adjust too early.
3. Do not touch.
4. Do not use if you find a tear, clear stain away from face or contamination.
5. Use temperature: 20°C and 38°C (68°F and 100°F)
6. Use humidity: 20% and 80%
7. Expiration date: 3 years after production

3. Step check before use

1. Check if the packaging has been opened or damaged.
2. Check if the expiration date is in good condition, and use date.
3. Check that the face sealable area is not broken.

Wearing Instructions

1. Hold the top and bottom with both hands with the elastic strap up.
2. Put the respirator against your face covering both nose and mouth. Place the ear loops around both ears.
3. Adjust the bottom strap over bridge of nose.
4. Make sure the respirator fits properly, covering the nose, mouth and chin.

Fit test

1. Place both hands over the respirator.
2. Take a deep breath and hold your breath for a few seconds, making sure the respirator sealant is seated as you inhale.
3. Then exhale and hold your breath for a few seconds, making sure the respirator straps are secured as you exhale.
4. If at all times, respiratory the respirator, tighten the bottom strap and the bottom straps for a seal. Do not let the bottom strap 1-3 again until a tight seal has been achieved.
5. Breathing that is after passed these three steps you can use safely to work.

1. Breathing that is after passed these three steps you can use safely to work.
2. If the sealant is not airtight, or a tight seal is not achieved, please do not use this product.
3. Do not use respiratory efficiency, durability, or other factors to judge the performance and durability.

These masks are not even legal in China
Yet they are being given to visitors with
no training or FIT testing.

These masks are not even legal in China

GOVERNMENT PARTNERING TO CHANGE BEHAVIOURS

Behaviour Change Research

Our research is focused on promoting behaviour change. During the COVID-19 pandemic, we created 'concern archetypes,' or general demographic trends that correlate with patterns of COVID-19-related attitudes and behaviours based on survey data from 2,000 Canadians. This allowed for an evidence-based approach to target segments of the population that demonstrated low concern or low prosocial behaviours with regards to COVID-19. 19 to Zero has engaged with thousands of Canadians through surveys, interviews, and focus groups since December 2020. These research activities inform 19 to Zero's ongoing strategies for enhancing vaccine confidence.

To understand how to promote behaviour change, we have compiled the largest focused body of research in Canada

We combine our own primary research and that of a broad network of partners.

GOVERNMENT PARTNERING TO TARGET THE VACCINE HESITANT

Behaviour Change Research

Our research is focused on promoting behaviour change. During the COVID-19 pandemic, we created 'concern archetypes,' or general demographic trends that correlate with patterns of COVID-19-related attitudes and behaviours based on survey data from 2,000 Canadians. This allowed for an evidence-based approach to target segments of the population that demonstrated low concern or low prosocial behaviours with regards to COVID-19. 19 to Zero has engaged with thousands of Canadians through surveys, interviews, and focus groups since December 2020. These research activities inform 19 to Zero's ongoing strategies for enhancing vaccine confidence.

Behaviour change interventions must target people who are likely to be vaccine hesitant and tailor messaging to them

WHAT WE'VE LEARNED WORKS:

1. **Allocate funds effectively** for a population specific approach; using resources to reach vaccine-willing populations is inefficient
2. Use **tailored messaging** to deliver the messages specific to vaccine hesitant populations and their communities
3. Test each message **directly with multiple hesitant sub-populations**, not with the vaccine willing

WHY?

- Messaging towards people who are already vaccine confident **does not** turn the dial on vaccine hesitancy as these individuals are already willing to get vaccinated
- Tailored messaging has been shown to be effective at changing an individual's behaviour compared to a one-size-fits all approach to public health messaging
- Vaccine hesitant **sub-populations** have varied concerns and will respond to messages differently than other sub-populations and the general public, which includes the vaccine-willing

GOVERNMENT PARTNERING WITH 'INFLUENCERS' (THROUGH 3rd PARTIES)

Behaviour Change Research

Our research is focused on promoting behaviour change. During the COVID-19 pandemic, we created concern archetypes, or general demographic trends that correlate with patterns of COVID-19-related attitudes and behaviours based on survey data from 2,000 Canadians. This allowed for an evidence-based approach to target segments of the population that demonstrated low concern or low prosocial behaviours with regards to COVID-19. 19 to Zero has engaged with thousands of Canadians through surveys, interviews, and focus groups since December 2020. These research activities inform 19 to Zero's ongoing strategies for enhancing vaccine confidence.

To reach echo chambers, use influencers from within
hesitant communities and paid, targeted ad content

WHAT WE'VE LEARNED WORKS:

1. Engage influencers trusted by vaccine hesitant groups to share pro-vaccine messages
2. Use paid advertising to reach vaccine hesitant communities with tailored, pro-vaccine content
3. Do not rely on organic pro-vaccine content to reach vaccine hesitant communities, or to be effective if hesitant people are exposed

WHY?

- Organic content stays almost exclusively in a single "bubble", so pro-vaccine messaging from pro-vaccine accounts **will not** be circulated within the anti-vaccine echo chamber
- However, many influencers are trusted within echo chambers for non-vaccine reasons (e.g. political views), allowing delivery of pro-vaccine content to "bubbles" with true reach and effectiveness
- Social media algorithms are powerful, and **paid advertising will reach across echo chambers**, including across multiple vaccine hesitant communities

Sold as an inventory Act – used to steal.

Under British and Canadian
Common Law it is the duty of the
Crown to protect the most
vulnerable and charities.

This power is what was used during
COVID to force parents *(and foster
parents in particular in Alberta)* to
comply with all the insanity or lose
their children.

It expanded to the ‘vulnerable’
where under the ‘authority’ of the
Crown (the government), family and
guardians of all vulnerable people
were forced to bend the knee or lose
control & access completely.

Sold as an inventory Act – used to steal.

Now in Alberta, the government has taken that to a whole new level.

Transferring the title of property and land OWNED by AHS (a Canadian registered charity and stand-alone company) over to Alberta Infrastructure.

And where is the Left in this equation? Nowhere to be seen.

Next will come the schools.

Will anyone stand up and challenge this abuse of power?

The claim the government is making is that these properties are shown on the balance sheet of expenses so should be under their direct ownership (title).

However, the government gives money to private businesses and charities all the time. That doesn't entitle them to seize control when they feel like.

What would the owners of Rogers Place say if the government took that stance with their property?

And who would take ownership?
The City of Edmonton?
The Province?

A line on the balance sheet as an
expense IS NOT PROOF OF
OWNERSHIP.

In fact, these properties have been
listed as physical land and property
assets of their respective Charities for
decades.

Will that disappear from their balance
sheet overnight on April 1st, 2025?

What about the \$billions in non-
governmental charitable donations
that have been given to AHS, Capital
Care, CareWest and others to improve
these buildings and associated land?

The law is clear as regards charities. The Crown is the defender of charities and the work they do. In the event of a dispute regarding the management of charitable donations, the Crown is supposed to step in and protect THE CHARITY.

This would be the job of the Justice department (normally the Federal Attorney General for Canadian registered Charities). In some cases, the Provinces have taken on that role.

There is a wrinkle in the case of Alberta. That relates to where the Crown suggests it has an interest in the Charity/funds/assets in question. In that event, the Crown must provide two separate defenders -one to defend the Crown’s alleged interest, and one to protect the Charity.

Herein lies the challenge in Alberta. That defender of the Charity is the Solicitor General.

A role that is now somewhat absent due to AJAG and SolGEN merging in 2012.

Arguably the role should still be with the Ministry of Public Safety and Emergency Services but that creates a further challenge in Alberta.

Two Ministries with something to hide...

In 2012 – AJAG and SolgGEN merged
Creating a conflict of interest in protecting Albertans

- *ZERO JUSTICE.*

From Bill 1 (Critical Infrastructure), COUTTS, COVID Tickets to the Ingram Case. They all have one thing in common. Lawyers.

From the Prosecutor to the Freedom Lawyers – none are on your side. All have conflicts. And it all comes back to the Justice Ministry.

Ingram wasn't a win.

Coutts never needed to be prosecuted by Alberta Justice using Alberta resources.

COVID tickets should have ended this in 2020 with a simple act of FULL DISCLOSURE.

And now the critical infrastructure has been expanded to data centers and oil properties.

Be careful what you wish for Big Oil... You have now lost your Constitutional rights just like the two mile militarized border zone covering COUTTS!

https://dksdata.com/Court/NotesForShaneGetsonMeeting_Redacted.pdf

worked at the COVID-19 injection sites, it was a regular occurrence that 911 was called, and ambulances would arrive, and transport people to the hospital."

"One day ([April 16th, 2021]), 4 ambulances were called simultaneously to the same site Redacted

"Our vaccine supply was running low, and we were told to extend the dosing from 21-28 days as per manufacturer requirements to 12-16 weeks."

"When we received more vaccine supply, Dr. Hinshaw, and Jason Kenney changed the messaging again, and urged the public to come in for their second dose as soon as possible."

"I was instructed to administer a prefilled syringe to clients with the apparent vaccine. I was told a team of Nurses and Pharmacists were doing the reconstitution of the Pfizer vaccine and it would help us with efficiency to give a preloaded syringe to save time of the immunizing Nurse not needing to mix and draw up their own vaccine"

"I expressed my concerns about giving a vaccine that I did not draw up. I called my licensing body and asked what to do. This has never been acceptable practice or deemed safe to administer a drug I did not mix. I was told by my licensing body Redacted and my Union AUPE that if AHS was telling me to do it, then to go ahead and give it."

"I was also told that we might need to extend the expiry date by 2 months of the COVID- 19 vaccine vials. Again, this has never been common practice. We have always returned expired vaccines to the vaccine depot for disposal."

"In the late afternoon of November 30, during a school team meeting at Redacted , I was told that I would be needed to administer school program vaccines at Redacted school which is a K-9 school the next Day on December 1, 2021.

I spoke to my CDN regarding entry/access into the school without being able to provide a QR code/vax pass at the door. I was instructed to follow my fellow school team members in the door. If they were not asked to provide a QR code/vax pass at the door, I would just enter the school directly behind them. If my coworkers were asked to produce a QR code/Vax Pass at the door, I was instructed to turn around and leave the school. It was understood by me and management that I may not be granted access that next day at the school, but a risk I was instructed to take. I felt nervous and embarrassed that I may not be granted access into the school. Can you imagine AHS management instructing an employee to sneak into a school?"

"I then called NACI (number from their website) on my own time, and phone before I started work. I did not reveal where I worked. I was told by NACI that the current recommendation was to wait for 14 days before receiving the FLU vaccine after receiving the COVID-19 vaccine, but they could not offer any recommendations regarding spacing of COVID-19 vaccines and other vaccines.

AHS's practice during this time was to offer COVID-19 vaccines and FLU vaccines simultaneously in different arms, outside of the NACI recommendations."

"On the evening of Sunday December 12, 2021 I received a call from Lawyer Redacted, He indicated he was in a court case representing a few Physicians and asked if I would read an

affidavit he had prepared. He indicated it was time sensitive, and he needed me to read it and sign it and return it to him ASAP.

His colleague and Lawyer Redacted (who I never previously met or spoke to) sent me a prepared affidavit to my personal email address. I have no experience in the court of law, and I was not aware at the time of what an affidavit even was. I read the affidavit, and I felt rushed and pressured, to sign it.

I asked the lawyer if there would be any additional repercussions by signing this. He indicated there was no reason to believe there would be any form of discipline, as the Physicians presented in the case were not disciplined. I trusted him, and in blind faith, I signed it. I believed at the time that my signed affidavit was only to be used and share with the Physicians named on the affidavit. I did not realize it was going to be forwarded to AHS lawyers."

"I spoke to Redacted immediately after receiving my termination letter on December 31, 2021. He laughed and told me that he was not surprised I was terminated! At this point I was crying. How could he find this funny?"

Notes from meeting with Nurse:

- Coerced to go into schools without a vax pass to inject children (threatened) – Entering as a trespasser.
- Told to give AZ after it was pulled from most countries because they were afraid of running out of mRNA vaccines.
- Extended the vaccine expiry by two months.
- Moved to pre drawn syringes so nurses didn't even know what they were injecting (for efficiency).
- Nurses never saw the frm21765 Vaccine Consent Form (so neither did the recipients of the vaccine).
- 911 calls and a steady stream of Ambulances to COVID clinics (times and dates available).
- Sudden deaths and clear vaccine reactions from Care Homes throughout.
- Staff told to not vaccinate a group of people one day due to a lack of information on safety (i.e. none for those groups), then to vaccinate them all the next day.
- EMS knew, Redacted knew, JCCF (Keith Pridgen) knew, Redacted knew, AHS knew. They all covered this up

Redacted and his colleague drafted a statement from nurses notes that excluded critical items from the above.

They told the nurse there would be no ramifications from providing a witness statement to the lawyers.

- Redacted sent the statement to the AHS lawyers and the nurse was immediately fired for Breach of Privacy.

Nurse called Redacted and Redacted stated he thought that would happen and laughed at her.

- JCCF (Keith Pridgen) represented the nurse against her college complaint and arranged for the nurse to sign a nondisclosure, take courses and agree to the information she had being hidden in return. This is a standard offer all colleges were (and still are) providing to ensure the evidence of crimes during COVID is never seen by the public or the police. This is technically a conspiracy to pervert the course of justice between the lawyers and Colleges.

Note that the college agreement confirmed (as did AHS) that the issue was not that the nurse

Subject: RE: Review of evidence live 8pm MT - URGENT
Importance: High
Sensitivity: Confidential

Thank you for your prompt response.

However, the evidence to present DIRECTLY involves the Justice Ministers Chief of Staff, **Redacted**. The same Chief of Staff (and ex JCCF lawyer) who has been delaying the material being forwarded for many months. Mr. **Redacted** knows very well he cannot have a meeting yet continues to try and prevent the material moving forward. This is a crime.

I would hope that your office would ensure more discretion in future before contacting the very office mentioned below. This level of compromise at the Justice Ministers office (and the Chief Whip) cannot be allowed to expand into the office of the Minister of Public Safety and Emergency Services. This would impact the whole of the integrity of the Judicial process in Alberta.

These were the words of my MLA speaking to me at the Alberta Legislature just before I gave a speech - September 29th, 2023

I don't know if he knew I was already miked up for the speech when he spoke to me. He is lucky it wasn't live streamed. Based on his candor from the start, I don't think it would have changed what he has said and done, but it is clear he is now being put under pressure by the people above him. He has tried to help (and is one of the few who did). If only the media, police and other politicians had integrity.

*"I just spoke to the **Chief of Staff [Justice Minister]** at their office. **They will be contacting you.** I gave them all your information. **I explained what you have, all the documents. I said it takes about 2 hours to go through all the documents, and they really want to hear. They are going to invite their chief policy advisor to have a conversation as well. I said, you have done the work that I think the army should have done. They didn't give me a date, but I said it is urgent. I showed them the texts that you sent where this is from our [the government's] own site [referring to the XBB vaccine pushed contrary to NAVI and CDC guidelines]."***

This was the original meeting expectation after several follow ups by my MLA.

David T. Dickson – DKS DATA

March 25th, 2024
Chief **Redacted**
Police Headquarters
9620 - 103A Avenue,
Edmonton, Alberta, Canada
T5H 0H7

By Registered Mail and Direct Email.

Dear Chief **Redacted**

My name is David Dickson. I am a retired UK Police Officer (residing in Alberta since 1995).

The matters below are far more complex than can be adequately explained in this letter. As a result, I respectfully request an urgent meeting with yourself and any appropriate officers. From there, I would be able to provide all relevant material, details of witnesses and any additional assistance where I can.

As you will see from the included information, this could not be handled by walking into the front desk of any police station due to the parties involved and the seriousness of the offences. I have tried to elevate this matter through all official channels. However, as of this time, that has exposed further malfeasance, obstruction, and what I believe to be ongoing criminal activity.

1. Obstruction of Justice and destruction/withholding of critical evidence of significant crimes against the person.
2. Manipulation of official government records to support offences against the person.

I have a large body of evidence to support the below but feel this requires discussion and presentation in a more secure and appropriate setting.

Obstruction of Justice and destruction/withholding of critical evidence of significant crimes against the person.

On or around April 5th, 2023, I was contacted **Redacted** employed as a nurse by AHS during COVID. This contact related to an article published online by then JCCF freedom lawyer (and current Chief of Staff to the Alberta Justice Minister), **Redacted**.
<https://www.jccf.ca/professional-misconduct-accusations-withdrawn-against-nurse-who-shared-information-about-covid-19-vaccinations/>

This article appeared to indicate some serious concerns related to the COVID vaccine rollout that were being hidden from the public and thus would contribute to a willful lack of Informed Consent related to medical interventions. These would not only be offences under the relevant health legislation but

Alberta CMOH official policy on the use of pre-filled syringes for COVID Vaccines in 2021

"immunizers must:"

"Only administer the COVID-19 vaccine that they have drawn up and labelled themselves"

Pre-filled syringes during the COVID shot rollout were prepared improperly and in many cases by untrained staff. This was reported to UNA, Colleges, and AHS. This was against College requirements and CMOH directions during 2021. Any and all COVID vaccinations given during that time using a pre-filled syringe by AHS or Pharmacies would be considered **without** informed consent. This makes every single shot given within those criteria a reportable assault.

The Union (UNA), Colleges and AHS buried this information in 2021/2022. This was later reported to Freedom Lawyers in Alberta who again buried this information along with AHS and a nursing college in 2021/2022.

In 2023 this was brought to the attention of the Chief of Staff of the Alberta Justice Minister. He buried this information. The UCP Chief Whip, Justice Minister, Health Minister, Public Safety Minister among others are all aware of this practice and have buried this information as part of a conspiracy to commit an obstruction of Justice. All MLA's in Alberta are aware of this (on both sides of the aisle). None have done anything.

In 2024 EPS was directly informed of this and the Head of Internal Legal services at EPS specifically refused to have EPS investigate this mass assault on the population of Alberta despite having direct evidence of it.

It is now urgent that anyone who was part of the zoom call with UNA (or filed a complaint with a college, AHS or their union), used a pre-filled syringe and/or has any information on the direction given to use pre-filled syringes that they did not draw themselves contact me immediately.

<https://onehealth.ca/Portals/1/2021-02-04%20Prefilled%20Syringes%20COVID-19%20Immunization%20-%20Final.pdf>
<https://open.alberta.ca/dataset/58d31634-61d9-469d-b95f-f714719b923e/resource/3b73d911-8a68-444f-958e-87ef054e88a9/download/prefilled-syringes-covid-19-policy.pdf>

"Requirements

In addition to the Alberta Immunization Regulation, regulatory and employer requirements, immunizers must:

- Label the pre-filled COVID-19 vaccine syringe with the vaccine type, vaccine lot number, and date and time the vial was first punctured and/or reconstituted, and
- Only administer the COVID-19 vaccine that they have drawn up and labelled themselves.

CARNA, CLPNA and CRPNA have been informed of this interim policy. It is the regulatory colleges' expectation that all regulated members must follow public health advice and guidance set out by the Chief Medical Officer of Health (CMOH), under the Public Health Act during this declared state of public health emergency. Regulated members are encouraged to contact their regulatory body with any Standard of Practice related questions."

[https://www.ab.bluecross.ca/pdfs/Off-Site-Pre-Filled-Syringes-\(PFS\)-for-small-groups.pdf](https://www.ab.bluecross.ca/pdfs/Off-Site-Pre-Filled-Syringes-(PFS)-for-small-groups.pdf)
<https://www.ab.bluecross.ca/pdfs/Off-Site-Pharmacy-Immunization-Policy-APPROVED.pdf>

"In addition to the Alberta Immunization Regulation, regulatory and employer requirements, immunizers must:

- Label the pre-filled COVID-19 vaccine syringe with the vaccine type, vaccine lot number, and date and time the vial was first punctured and/or reconstituted, and
- Only administer the COVID-19 vaccine that they have drawn up and labelled themselves.

Individuals who are to receive COVID-19 vaccine from a PFS must provide informed consent."

"Suggested informed consent script:

"Due to challenging vaccine storage and handling requirements, the best way to transport the vaccine to your home is in a prepared syringe. It is important to understand that transporting the vaccine this way has not been broadly studied and there is limited data regarding the stability of the vaccine transported in this way. Would you like to proceed with receiving an immunization from a prepared syringe for COVID 19 vaccine?"

Subject: CMOH Update - 11 January 2021

Hello Sir,

Here is a quick overview of the CMOH COVID-19 update just now.

...

IAPU 268
2023-G-0163

Dr. Hinshaw, CMOH

- 13,917 active cases in AB (YEG zone is at 5,441 active cases),
- 639 new cases, positivity rate of 6.3
- 811 in hospital, out of those 130 in ICU
- 23 deaths in last 24 hours
- Resumption reporting of school Covid-19 cases later this week
- In Alberta only seven (7) adverse health reactions were reported, only three (3) were allergic reactions, none anaphylactic. Current rate of adverse events similar to other vaccines.
